

SECURITY HEORES

GIMNASIO LOS PINARES

Why did we decide to make “security heroes”?

We decided to do this project to become aware of problems of mobility in our school Gimnasio Los Pinares and its surroundings, see the main problems that exist in this institution and especially teach to the educational community about how to be responsible with safety regulations because if not this can affect the lives of many people.

<http://www.pinares.edu.co>

Why is it important that the students provide and are aware of these issues:

Because students are the future of society, and if you teach young people and children then you will avoid accidents in the future and you can make the traffic roads a safer place. The awareness of a situation the key to prevent errors.

ACTIVITIES AND PROJECTS

Efficient demolition

The girls' objective was to widen the road of the school's exit due to a lot of traffic jam. They made a video to explain their problem.

Fast and furious

These girls made some posters to make sure that people that are going to start driving know what can cause the speed excess and drugs while driving so that take precautions when driving.

Tu Vida En La Via

The girls wanted to raise awareness about road safety rules. They made a presentation for primary girls, posters and a video to high school girls, showing the consequences of not following the rules and explaining how to be better.

Poster taken from internet
Made by the projects students

Puente Alvaro Uribe Vélez

These girls would like to construct a bridge to mobilize the traffic of a bad construction. Their idea was to remove all the red lights in their selected area and construct the bridge for the people's safety, they made a model to represent it.

New entryway

These students wanted to construct another way of entering the school. They wanted to mobilize the traffic that parents do when they leave their daughters in the school door.

Stop motion

These girls made a stop motion video to raise awareness in young people (15-22 years old) of the responsibility of driving, and how, for example, drugs can affect the way we behave while driving.

ISMAJU

This girls objective was to construct a bridge in front of the school road exit to make sure that the students don't get hurt when they are leaving the school. They made a video and a presentation to explain their plans.

En El Camino

This girls made a video to create awareness in young people about the alcohol, drugs, over speeding, and the use if cellphone while driving and all of its consequences.
