

## **SURVEY RESULT EVALUATION**

This survey has been conducted on 120 high school students.

### **Frequency of Cross-walk Usage:**

19 students out of 120 have stated that they always use crosswalks whereas it was depicted that 86 students they often use cross-walks. Furthermore, 15 students pointed out that they never use cross-walks. It was deduced from the survey that approximately 85 percent of students have been using cross-walks.

### **Looking Right and Left While Passing Across A Street:**

Only 2 students stated that they do not look right and left while crossing the street. Percentage of students who look right and left is 98.

### **Adequate Number of Crosswalks:**

According to survey, only 20 % of the students stated that there are sufficient crosswalks in our city, Ankara. Moreover, 96 students out of 120 do not find the number of crosswalks sufficient.

### **Stopping for Pedestrians at crosswalks:**

In the survey 42 students out of 120 said that drivers stop at crosswalks for pedestrians to pass by. According to results it was found out that 60% of the students stated that drivers do not stop for them to pass on cross walk where there isn't any traffic lights.

### **Stopping for Pedestrians at crosswalks 2:**

In the survey 50 students stated that their parents always stop at crosswalks for pedestrians, whereas parents of 67 students often stop at cross walk pedestrians. Approximately 42% of students' parents give way to pedestrians.

### **Knowing that our college (Gazi University Foundation Private Anatolian High-school) has school crosswalk:**

74 students out of 120, know that our school has "school cross walk" in front of our school, therefore 45 students said that they do not know whether there is a "school cross walk" or not.

### **Knowing that our college (Gazi University Foundation Private Anatolian High-school) has school crosswalk sign :**

67 students said that they know there is a "school crosswalk" sign, whereas 53 students stated that they do not know whether there is a sign or not.

### **Feeling safe while crossing a street by using cross walk when there isn't any traffic light:**

83 students out of 120, do not feel safe while crossing a street by using cross walk when there isn't any traffic light

**Feeling safe while crossing a street when there isn't any cross-walk:**

95 students out of 120, do not feel safe while crossing street without using crosswalk while 25 of them do. It can be seen that only 21 percent of the pedestrians feel safe in traffic.

**Being informed about the traffic ticket for not stopping on the crosswalk :**

62 students out of 112, know about the traffic ticket for not obeying traffic rules with not stopping on the crosswalk so the remaining 56 are informed. That makes the 52 percent of the pedestrians are conscious about the traffic ticket.

**Knowing the price of the traffic ticket**

23 students out of 68 know about the traffic ticket fee as 488 Turkish liras.

**Knowing about the traffic rules**

84 students out of 120 think that they have enough knowledge about traffic rules while 36 students think that they have insufficient knowledge.

**Taking traffic classes**

88 students out of 120 have taken traffic classes and 32 students haven't. Approximately,74 percent of the students took traffic classes.
